

CHIROPRACTIC CURRICULUM 2014 - 2019

YEAR 1					
Code	First term	Credits	Code	Second term	Credits
101	Anatomy I. Microanatomy	6	112	Anatomy II. Gross Anatomy	6
102	Palpatory Anatomy I	5	113	Palpatory Anatomy II	5
103	Cellular Biology	6	114	Cellular Biology II	6
104	Chemistry	4	115	Biomolecules	4
105	Clinical Propaedeutics and Semiology I	2	116	Clinical Propaedeutics and Semiology II	3
106	Transferable Skills I	1	117	Transferable Skills II.	1
107	Clinical Observation I	1	118	Clinical Observation II	1
108	Introduction to Imaging	1	119	Clinical Problem Solving I	2
109	Biophysics	2	120	Psychosocial Concepts in Health	2
110	History of Chiropractic	1			
111	Public Health and Epidemiology	1			
		Total			30
		30			Total 30

YEAR 2					
Code	First term	Credits	Code	Second term	Credits
201	Anatomy III	6	211	Anatomy IV. Locomotor System	5
202	Physiology I	5	212	Physiology II	5
203	Histopathology I	1	213	Histopathology II	1
204	Chiropractic Methods and Techniques I	5	214	Chiropractic Methods and Techniques II	4
205	Radiological Anatomy of the Human Spine	2	215	Radiological Anatomy of the Appendicular Skeleton	2
206	Biochemistry I	3	216	Biochemistry II	3
207	Clinical Propaedeutics and Semiology III	2	217	Clinical Propaedeutics and Semiology IV	2
208	Clinical Observation III	1	218	Clinical Observation IV	1
209	Biomechanics I	3	219	Biomechanics II	3
210	Fundamentals of Radiology	2	220	Applied Psychology	1
110*	History of Chiropractic		221	Philosophy of Chiropractic	1
102*	Palpatory Anatomy I		222	Clinical Problem Solving II	1
			223	Toxicology	1
			113*	Palpatory Anatomy II

*. **ADVANCED STATUS.** Students entering the program with a previous healthcare degree may begin in Year 2, with the exception of these subjects from Year 1. This decision is determined on a case by case basis by the Chiropractic Administrative Staff.

YEAR 3

Code	First term	Credits
301	Neuroanatomy I	6
302	Physiology and Pharmacology I	3
303	Nutrition	3
304	Chiropractic Methods and Techniques: Cervical and Thoracic Spine	4
305	Clinical Propaedeutics and Semiology V	3
306	Diagnostic Imaging I	2
307	Research Methodology	3
308	Clinical Observation V	1
309	Neuro-orthopaedics I	2
310	Radiography I	3

Total 30

Code	Second term	Credits
311	Neuroanatomy II	5
312	Physiology and Pharmacology II	3
313	Applied dietetics	3
314	Chiropractic Methods and Techniques: Lumbar Spine and Pelvis	4
315	Clinical Propaedeutics and Semiology VI	3
316	Diagnostic Imaging II	2
317	Biostatistics	3
318	Clinical Observation VI	1
319	Clinical Problem Solving III	1
320	Radiography II	3
321	First Aid and Emergency Procedures	2

Total 30

YEAR 4

Code	First term	Credits
401	Neuroanatomy III	6
402	Neurology I	4
403	Neurophysiology I	3
404	Chiropractic Methods and Techniques: Upper and Lower Extremities	4
405	Diagnosis I	2
406	Diagnostic Imaging III: Extremities	2
407	Neuro-orthopaedics II	2
408	Clinical Problem Solving IV	1
409	Applied Clinic I	3
410	Research I	3

Total 30

Code	Second term	Credits
411	Neuroanatomy IV	6
412	Neurology II	4
413	Neurophysiology II	3
414	Non-HVLA Chiropractic Techniques	4
415	Diagnosis II	2
416	Diagnostic Imaging IV: Thorax and Abdomen	2
417	Neuro-orthopaedics III	2
418	Clinical Problem-Solving V	1
419	Applied Clinic II	3
420	Research II	3

Total 30

MASTER (MChiro)

Code	First term	Credits
M01	Research Project I	6
M02	Clinical Internship I	20
M03	Ethics, Bioethics, and Deontology	1
M04	Modules of Advanced Diagnostic Imaging, Neurology and Chiropractic Care for Special Populations (Geriatrics, Paediatrics, and Athletes)	3

Total 30

Code	Second term	Credits
M05	Research Project II	10
M06	Clinical Internship II	20

Total 30

N.B.¹ Curriculum approved by the *Consejo de Dirección* of the *Real Centro Universitario Escorial María Cristina* in its board meeting on 20/11/2015 and accredited by the **European Council on Chiropractic Education (ECCE)** until 2023.

N.B.² The credit system adopted is equivalent to the ECTS (European Credit Transfer and Accumulation System), in which 1 credit is equivalent to 1 ECTS.

Ricardo Fujikawa, MD, DC, MSc
